Professional summary

Frontend Developer and **UI/UX Designer** with **5+ years of experience** specializing in Conversion Rate Optimization (CRO) for websites, mobile apps, and SMS marketing popups. Combines strong graphic design fundamentals with technical proficiency in **Figma, HTML, CSS, JavaScript, ReactJS, Next.js, and TypeScript**. Experienced in API integration, Context API, and UX research to inform design decisions. Collaborative cross-functional team player who works closely with clients, developers, marketers, and content creators to deliver clean, user-friendly, and brand-aligned digital experiences.

Core Skills

Frontend Development, UI Development, UX Design, CRO, Responsive Design, Web Performance Optimization, Accessibility (WCAG), API Integration, Clean Architecture, Agile Collaboration

Technologies and Skills

Frontend Development:
React.js, Next.js, React Native, TypeScript, JavaScript, HTML, CSS, Styled-Components, Responsive Design, Clean Code

UI/UX Design & Prototyping:
Figma, Wireframing, Prototyping, Design System

Backend & APIs:
API/REST, Unit Testing

Tools & Platforms:
GitHub, Azure DevOps

Other:
Software Architecture

Work Experience

Brand And Web Designer
Postscript | United States (Remote)
01/2024 – 01/2026

- Designed high-converting SMS marketing popups for Postscript's eCommerce platform, serving global brands such as Feastable (Mr. Beast), Hexclad (Gordon Ramsay), and Innosups (Simion Panda).
- Collaborated closely with project managers and creative directors to align popup designs with brand guidelines and optimize user engagement.

- Implemented responsive popup designs using the company's internal builder and custom CSS, ensuring cross-device compatibility and performance.
- Maintained detailed design and CSS documentation to support consistency, reusability, and team collaboration.
- Contributed to Conversion Rate Optimization (CRO) efforts through data-informed design iterations and UX best practices.

Frontend Web Developer (Freelance)
Moabe | Brazil (Remote)
10/2023 – 01/2024

- Performed frontend UI corrections and maintenance for a SaaS-based betting web application to optimize user interface and enhance overall user experience.
- Implemented responsive design improvements using HTML, CSS, and JavaScript to ensure cross-browser compatibility and performance.
- Utilized Azure DevOps for version control, streamlined collaboration, and continuous integration throughout the development lifecycle.
- Contributed to UI optimization efforts aimed at increasing usability and visual consistency across the platform.

UI/UX Designer (Freelance)
Luvulu | Angola (Remote)
07/2023 – 09/2023

- Designed the UI/UX for a medical application focused on doctor discovery and appointment booking functionalities to improve user engagement and accessibility.
- Conducted user interviews and utilized AI-assisted research (ChatGPT) to gather insights and inform user-centered design decisions.
- Created wireframes, prototypes, and high-fidelity mockups using Figma, ensuring intuitive navigation and seamless user flows.
- Collaborated with stakeholders to translate user needs into functional design solutions that enhanced overall user experience.

Frontend Tech Leader & UI/UX Designer
Viansari | Angola (Remote/Hybrid)
01/2022 – 07/2023

- Led the end-to-end design and development of SaaS web applications for clients, from concept to deployment.
- Directed frontend architecture using React.js, Next.js, TypeScript, and ChakraUI, ensuring scalable and maintainable codebases.
- Designed user interfaces and prototypes in Figma, aligning visual design with user experience principles and client requirements.
- Managed project workflows and team collaboration using Azure DevOps, Discord, Trello, and ClickUp.
- Mentored developers and facilitated cross-functional communication to improve project delivery and technical quality.

Frontend Web Developer
Monocard | Brazil (Remote)
01/2022 – 05/2023

- Led the maintenance and restructuring of the company's e-commerce platform, improving performance, scalability, and user experience.

- Developed and refactored frontend components using React.js, Next.js, TypeScript, ChakraUI, and WordPress.
- Managed version control with GitHub and coordinated tasks using ClickUp to streamline project workflows and team collaboration.
- Ensured code quality and consistency through clean architecture practices and responsive design implementation.

Frontend Developer & UX/UX Designer (Freelance)
Personal Client | Angola (Remote)
07/2021 – 09/2021

- Designed and developed a music streaming mobile application from concept to deployment, focusing on intuitive UI/UX and smooth playback functionality.
- Created wireframes and prototypes using Adobe XD, and built the frontend with React Native (Expo), HTML, and CSS.
- Managed the full design-to-development cycle, ensuring alignment between visual design and technical implementation.
- Delivered a fully functional app tailored to user specifications and modern mobile design standards.

Fullstack Web Developer (Freelance)
Personal Client | China (Remote)
08/2020 – 09/2020

- Built a personal portfolio website for an international DJ to showcase music, connect with fans, and share his career journey.
- Designed wireframes and prototypes in Figma, then developed the site using HTML, CSS, React.js (with Hooks), Node.js, and PostgreSQL.
- Implemented a responsive, visually engaging frontend with a lightweight backend for dynamic content management.
- Ensured fast load times, cross-browser compatibility, and a seamless user experience across devices.

FRONTEND DEVELOPER & WEB DESIGNER
F2s Company | Luanda, Angola
04/2020 – 07/2020

- Contributed to client web development projects as both a frontend developer and web designer, translating mockups into functional websites.
- Developed interfaces using HTML, CSS, JavaScript, React.js, and Styled Components.
- Created UI designs and interactive prototypes using Adobe XD to present concepts and gather client feedback.
- Collaborated with team members to ensure timely delivery and adherence to project specifications.

Desktop Software Frontend Developer
Wajiz Technology | Luanda, Angola
01/2015 – 10/2015

- Developed the frontend user interface for desktop software applications using NetBeans IDE and Java-based GUI frameworks.
- Collaborated with backend developers to integrate UI components with application logic and data layers.

- Focused on usability, consistency, and performance in desktop application design and implementation.
- Contributed to early-stage software projects, laying the foundation for scalable and maintainable frontend architecture.

Education

Bachelor Of Computer Science And Technology
Hohai University | Nanjing, China
2017 – 2021

Certifications

- Fullstack Web Development (React.js/Node.js) – Udemy
- Responsive Web Design – freeCodeCamp
- Frontend & Web Design – Udemy
- PHP and MySQL – PrimeCursos.com
- Introduction to HTML5 – PrimeCursos.com
- Informatics Technician – PrimeCursos.com
- Mandarin Chinese (HSK4) – Hohai University, China
- English Language Proficiency – Nocel Center
- Introduction to Hardware & Computer Networks – Plano de Férias, Angola

Languages

- Portuguese – Native
- English – Proficient (C2)
- Mandarin Chinese – Intermediate (HSK4)
